From Reader Reviews of the NT TransLine:

"... an extremely valuable resource! One of the challenges confronting pastors is time - especially taking the time to outline the passage so it is accurate, excellent and memorable. Your work has been a lifesaver for me!"

"... a joy to just read and study. When I read it I feel like I am reading the Greek NT... The notes are fantastic and extremely helpful."

"WOW!" Being a teacher and perpetual student of New Testament Greek, I am amazed at just how well-done this resource is. It so closely parallels the New Testament Greek, and yet is not unintelligible for English readers. And the commentary notes and concise word studies... are truly outstanding. The author does a good job of providing a variety of interpretations without allowing his own biases to come to the surface. I give this resource not merely a "5" but a "10" star rating."

"It's kind of like having a concordance, a transliteration a Greek lexicon and a textual commentary all rolled into one. Plus, you don't have to read Greek.."
